YTools (Ymap mover, ymap replacer, ymap merger)

How to install ?

Ymap mover :

1. File > Open Ymap
2. Set offset rotation, and position
3. Click Offset button then save the new ymap where you want.

Ymap Replacer :

1. Type archetype replacing in textbox and the archetype replacing in the replacing textbox
2. If you want to add offset position/rotation click the checkbox
3. If you are adding offset position/rotaion to the replaced arechtypes fill that out correctly
4. Click Replace button and save the new ymap where you want.

Ymap merger :

1. Open Ymap 1
2. Open Ymap 2
3. Click Merge button and save the new ymap where you want.
